About MME MEM

MME MME is a Nigerian event marketplace designed to make event planning easier, faster and more affordable.

The platform connects people planning events with a wide range of event venues and professional vendors across Nigeria, allowing them to discover, compare and book the services they need from one place.

Whether someone is planning a wedding, birthday, corporate event, conference, party, concert or private celebration, MME MME helps them find suitable venues and trusted service providers without having to spend hours searching through social media, asking for recommendations or contacting vendors individually.

What MME MME Does

MME MME brings different parts of the event-planning process into one platform. Users can:

Discover event venues suitable for their type of event, location and budget.

Find event vendors such as decorators, caterers, photographers, DJs, MCs, planners and other service providers.

Compare available options and prices before making a decision. Book venues and vendors directly through the platform.

Save time and reduce the stress traditionally associated with planning events.

Discover new businesses and service providers they may not have found

About the Logo

The MME MME logo represents connection, choice and the world of events. The curved symbol reflects event spaces and the connection between people, venues and vendors.

The bold MME MME typography gives the brand a strong, modern identity, while the clean design reflects Me Me's goal of making event planning simple, accessible and convenient.

02

color

BY DUTCHDESIGNZ

The MME MME colour palette combines a vibrant lime green with a deep green to create a balance between energy and trust.

Lime Green

Represents growth, freshness, energy and new possibilities. It gives Me Me a youthful and welcoming feel, reflecting the excitement and creativity that comes with planning an event.

Deep Green

Represents trust, stability, confidence and professionalism. It provides strong contrast against the lime green and gives the brand a more established and reliable feel.

Deep Green

#294A41

RGB: 41 / 74 / 65
CMYK: 45 / 0 / 12 / 71

Lime Green

RGB: 151 / 195 / 84
CMYK: 23 / 0 / 57 / 24

03

typography

BY DUTCHDESIGNZ

Bebas Bold is the primary typeface used for the MME MME brand. Its tall, bold and condensed letterforms give the identity a strong, modern and confident appearance.

The font is designed entirely with uppercase letters, which gives the brand a consistent and commanding visual presence. Its narrow structure also allows the name and other information to remain prominent without taking up too much space.

Bebas Bold works well for headlines, titles, signage, social media graphics and other key brand communications, helping Me Me maintain a clear and recognisable typographic style across different platforms.

04

variations

BY DUTCHDESIGNZ

MME MME Logo Variations

The identity has been developed in two complementary variations, giving the brand flexibility without changing its core character

Horizontal Variation

The MME symbol sits between the two “MME” wordmarks, creating a balanced, symmetrical composition. This version feels more open and conversational, making it ideal for website headers, social media, presentations, signage and wider layouts. The positioning also reinforces the idea of connection—bringing people and event services together through Me Me.

Stacked Variation

The original arrangement places the symbol beside the stacked MME MME lettering. This creates a more compact and recognisable mark, making it suitable for profile pictures, app icons, packaging, documents and spaces where a strong compact logo is needed.

Why These Variations Work

Both versions maintain the same symbol, typography, proportions and colour palette, so they are clearly part of one brand. The variations simply allow MME MME to adapt to different applications without creating different identities.

The logo should not be changed unnecessarily. The current design already has a distinctive symbol, a memorable name treatment and a strong colour combination. Changing the structure, typography or symbol too frequently could weaken recognition and make the brand less consistent.

The better approach is to keep the logo as it is and build a proper logo system around these two variations—using each version according to the space and application.

The logo doesn't need to look different everywhere; it needs to be recognisable everywhere.

The MME MME logo has been developed in both full-colour and monochrome variations to ensure the identity works across different backgrounds and applications while remaining consistent.

The **lime green and deep green** versions represent the primary brand colours. They can be switched depending on the background, using the deep green logo on lime green and the lime green logo on deep green creates strong contrast while keeping the brand's visual character.

The **black and white** variations provide a more neutral option for situations where the brand colours may not be suitable or available. They are especially useful for **documents, official materials, printing, photography, signage and other applications** where a simple one-colour treatment is needed.

These variations are not different identities; they are flexible applications of the same logo. Keeping the same symbol, typography and proportions across all versions ensures that Me Me remains recognisable and consistent wherever it appears

05

do and don'ts

BY DUTCHDESIGNZ

The Do means always use the MME MME logo in its approved form, keeping the original proportions, colours, typography and spacing intact. Use the correct logo variation for the background and application, and ensure there is enough clear space around the logo so it remains visible and recognisable.

The Don't means avoid making changes that can weaken or distort the brand identity.

Do not stretch, squeeze, rotate, recolour, rearrange or alter the logo, and avoid adding effects such as shadows, outlines or gradients.

The logo should also not be placed on busy backgrounds where it becomes difficult to see.

NO

Do not apply gradient to the icon or wordmark

NO

Do not rotate the logo

NO

Do not resolve the logo in two or different colors

NO

Do not distort or wrap the logo in any way

NO

Do not change the logo color or tone outside of the official colors

NO

Do not change the typeface nor recreate or manipulate the wordmark and icons

06

conclusion

BY DUTCHDESIGNZ

The MME brand identity is built around simplicity, connection, accessibility and a modern approach to event planning. Every element—from the distinctive logo and its flexible variations to the bold typography and vibrant colour palette works together to create a clear and memorable visual identity.

The identity is designed to represent a platform that connects people with the right venues and event vendors, making the process of discovering and booking event services easier and more convenient.

With a consistent use of the logo, colours, typography and brand guidelines, MME can maintain a strong and recognisable presence across digital platforms, social media, print, signage and other brand applications.

Overall, the identity gives MME a confident, youthful and professional personality that can grow with the platform and establish it as a recognisable name within Nigeria's event industry.
